Thunderbird Installation Manual for Mobile Phone

1: Install the application

- Open the Google Play Store on your mobile phone.
- Search for the Thunderbird application and install it.

2: Open the application

• Once installed, open the Thunderbird application.

3: Configure your Noswork email account

You have two options to link your account:

Option 1: If you already have the account synchronized on your PC with Thunderbird

- 1.1 On your PC, open Thunderbird and go to the **Settings** section.
- 1.2 Select the option **Export for mobile**.
- 1.3 Choose the Noswork email account you want to export and click on **Export**.

1.4 If your PC has a password, it will be requested to continue. If it doesn't have a password, it will show you a QR code.

1.5 On your mobile phone, open Thunderbird and select **Import settings**, which will activate the QR code scanner.

1.6 Scan the QR code shown on your PC.

1.7 Once the scan is finished, on your PC click on **Finish** to close the QR code.

1.8 Done! Your Noswork account will be synchronized on your mobile phone via Thunderbird.

Option 2: If you do not have the account synchronized on your PC or prefer to configure it directly on the mobile phone

2.1 In Thunderbird for mobile, select **Add an email account**.

2.2 Enter the email address of your Noswork account.

2.3 Configure the incoming mail server:

Server: your Noswork workspace mail server

Security: SSL/TLS

Port: 993

User: your Noswork email address

Password: your Noswork access password

User certificate: None

Check the verification boxes that appear at the end
